

## **Conditions affecting functions of consciousness**

This questionnaire is for a person with a condition which results in functional impairment related to consciousness. It relates to Table 15 of the Impairment Tables in Part 3 of the *Social Security (Tables for the Assessment of Work-related Impairment for Disability Support Pension) Determination (Cth) 2023*.

### **Treating Doctor (practice and specialisation)**

Name: \_\_\_\_\_

Practice: \_\_\_\_\_

Specialisation: \_\_\_\_\_

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

Name of patient: \_\_\_\_\_

### **Condition 1**

#### **Diagnosis**

Date of diagnosis:     /     /

Date of onset (if known):     /     /

Are further tests/investigations planned to determine the diagnosis?

- Yes  
 No

If yes, why are further tests/investigations necessary? (include alternative diagnosis)

*Please attach any other reports about the diagnosis of this condition or contact details of relevant treating doctors or psychologists.*

**Past and current treatment**

Provide information about all past and current treatment for this condition (e.g. surgery, hospitalisation, medication and dosage, counselling, physical therapy, rehabilitation).

Include date treatment commenced and dosage/frequency/duration where relevant.

<b>Treatment</b>	<b>Date commenced</b>	<b>Dosage/frequency/ End date of treatment</b>

**Compliance with treatment**

- Very compliant
- Usually compliant
- Rarely compliant
- Uncertain

If there are issues with the person's compliance, explain what they are and the reasons, including any issues with access to treatment.

--

**Specialist referrals**

Attach reports or provide details of any specialist referrals for this person.

<b>Name</b>	<b>Specialisation</b>	<b>Date of consultation</b>

## **Future/planned treatment**

Is there future/planned treatment which the person has not yet undertaken?

- No
- Yes - If yes, please provide the following information:

*Planned treatment 1:*

Likely date of commencement and duration/frequency:

Likely impact on this person's current ability to function:

- Substantial improvement
- Little or no improvement/preventative/management of symptoms
- Worsening of ability to function

Will the treatment result in the person being able to sustain working for 15 hours a week or more over a long period?

- Yes
- No

*Planned treatment 2:*

Likely date of commencement and duration/frequency:

Likely impact on this person's current ability to function:

- Substantial improvement
- Little or no improvement/preventative/management of symptoms
- Worsening of ability to function

Will the treatment result in the person being able to sustain working for 15 hours a week or more over a long period?

- Yes
- No

## **Clinical features**

### **Current symptoms**

Describe the current symptoms, including severity, frequency and duration. Symptoms are those which persist despite treatment, aids, equipment or assistive technology.

## **History**

Give details of underlying causes and contributing factors, results and dates of investigations/procedures and specialist consultations such as radiology or pathology.

## **Impact on ability to function**

Please answer the following questions about how the condition and its treatment currently impact on the person's ability to function. This questionnaire is for a person who has a condition resulting in functional impairment due to involuntary loss of consciousness or altered state of consciousness. Examples include epilepsy, transient ischaemic attacks, some forms of migraine, brain tumours, narcolepsy, cardiac or other forms of syncope.

### Impact of involuntary loss, or altered state, of consciousness on daily activities

Provide information about any involuntary loss, or altered state, of consciousness (including impact on the person's functional abilities, such as loss of awareness of surroundings) when the person is occupied with a task or activity, including:

- frequency and duration; and
- need for first aid, emergency medication or hospitalisation

Describe the impact of the person's condition on their ability to perform activities of daily living between episodes

Driver's licence or other restrictions

Give details of any restrictions on the person's drivers licence, or other safety-related restrictions on activities due to the medical condition.

Ability to attend work, education or training

Describe any impact on the person's ability to attend work, education or training activities, including any limitations on hours per week or restrictions due to safety issues in work-related activities they can undertake.

**Future impact on ability to function**

How long is the impact of this person's condition on their ability to function expected to last for?

- Less than 3 months
- 3-12 months
- 13-24 months
- More than 24 months

Within the next 2 years the effect of this condition on the person's ability to function is expected to:

- Resolve
- Significantly improve
- Slightly improve
- Fluctuate
- Remain unchanged
- Deteriorate
- Uncertain

Give details
